

Globe D. 1st Root Race.

All 7 planets conjunct in the 1 degree of Pisces during the Carboniferous/**Pennsylvanian** or **320,000,000 BC**. The birth of free will. The 1st root race was sexless and mindless. Instead of dying the 1st root race disappeared into the 2nd root race without begetting, procreating or dying. It was a wholesale transformation of the 1st into the 2nd. Around **150,000,000 BC** in the **Jurassic**, the appearance of mind began. Also these proto-humans had ethereal bodies that were androgynous. They gave birth by dividing in half like cells do. At this point the 7 senses (sight, sound, smell, touch, taste, intuition, karma) were as one spiritual perception.

Globe D. 2nd Root Race.

Little Information. Theosophical text state that this cycle produced offspring from the sweat of their bodies. They refer to them as the sweat-born races. This was similar to the way plants bud.

Globe D. 3rd Root Race. The Lemurians

Every race of humans are divided into 7 parts.

About **65 to 54** Million Years Ago (*Paleocene Age*) the Lemurians began their cycle. It was in the 3.1 (*first third*) of that cycle that their Astral body began to become a solid physical body! This batch of humans live on the sacred island in central Asia north of the Himalayas in mid-Asia. This early 3rd root race could live in fire, water and wind. During Paleocene most of the main island had sunk in the Pacific Ocean by Aryan **5.6** cycle. In theosophical text they are called them "*sons of the fire mist*". About the **3.4 to 3.5** cycles; during the *Miocene age*, the Lemurians reincarnated into solid physical bodies. This occurred from **13,000,000 to 7,360,000** Million Years Ago. These **One Eyed Solid Physical Giant Cyclops** began to arise around **18,618,000** Million Years Ago. My best guess is that they ranged between 150 feet to 75 feet tall. The 3rd eye of the solid physical Cyclops had open during the (**3.4**) or **18,618,000** Million Years Ago. This lasted until **5** Million Years Ago when their 3rd eye had closed (**3.4 to 3.5 cycle**). At that point the cyclops reverted back to only two eyes and began a slow process of losing height and psychic abilities over time. The separation of the sexes also had occurred during this cycle of time. That is, (**3.4 to 3.5 cycle**) the sexes (male & female) began to separated between **13 to 5** Million Years Ago! Also, during the Miocene (**3.5**) or **7,360,000** Million Years Ago, mankind's ancestor split into two groups. The Dark Titans or (*3 eyed humans*) and a side off shoot we now call the "apes". Theosophical texts hold that the apes devolved

from the 2 eyed giant races. The difference between the two groups is that the 3rd eyed Titans had the power of divine thought and the apes did not. That is, the Dark Titans had the power of abstract scientific thought and the apes did not. They lacked the spark of consciousness. Finally, it was during the Aryan **5.6** cycle that the very last of the Lemurians build the rock cities of stone and lava that can be had around the world. Please keep in mind that *H.P. Blavatsky* considers the birth of *humans* to have begun with "de-evolution" from Astral to solid physical bodies about **18,000,000 Million Years Ago**. Also keep in mind that these are ruff estimates due to fact that when one group reaches its zenith and starts to decline, another group is born and starts to assent. Also, during these overlaps member from different races breed with one another.

Globe D The 4th Root Race. The Atlantean

The Atlantean emerge from the Lemurians when their zenith was reach and their decline began. They were at 27 feet tall and their bodies were much more dense that modern humans. The Atlantean cycle began 54,000,000 Million Years Ago during the **Eocene** and reached its zenith about **33,700,000** Million Years Ago. That is, from the **4.1** cycle through to the **4.7** cycle; around **54,000,000** Million Years Ago, all the senses were one. But as each sub-cycle began a sense would become independent from this one "all sense". That is, during the Atlantean **4.1** speech and sight were one sense. During the **4.2**, touch become independent from the . During the **4.3** hearing become independent. During the **4.4** smell became independent from the "all sense". Finally at 4.5 sight and hearing became separate senses. Moreover, as best as I can tell; the **Mid-point** between the Atlantean **4.4** and **4.5** occurred during the **Miocene** around **7,360,000 BC**. Again at this point another group of Apes branched off from the giant Atlanteans around this time. It was the "**Horlet**" the Lemurian who dweller on the Atlantean island **Unal** who remain behind for untold millions of years, It was he who and trained the incoming 4th root race adapts in the occult sciences and arts. I may be wrong but it was Horlet who personally trained the "**Hermes Trismegistus**" in the main temple on the Island of Undal. He taught **Hermes Trismegistus** how to extend his life cycle for many millions of years. At the beginning of the 4th root there were 4 islands in the Atlantic that I have been able to I.D. The largest island called "**Ruta**" or the white island, followed by a decreasingly smaller island chain called: "**Daitya**" **270,000 BC**, "**Unal**" **No Date?** and "**Poseidon**" **11,000 BC**. During the overlap between Lemurian and Atlantean civilizations many wars broke out between the 3rd and 4th race adapts. Atlantis went from one island to 4 island over time. As far as I can tell **Ruta**, after millions of years of gradual submerging completely sank around 850,000 BC. Some of its remains can be had in the the islands of *Madagascar*, *Ceylon*, *Java*, *Born* and the main islands of *Polynesia*.

The Lemurians 1st cycle of Globe D

Keep in mind that their are 7 earth globes labeled A through G

The perfected spiritual beings from Globe C began testing and experimenting with different ethereal body types. This was before they decided on the ethereal bi-pedal plan. They are know in theosophical texts as the "Chhaya Race" which mean "An Pre-Astral Image" or blueprint for the etheric body. These pre-etheric

ape like forms were “Water-Men” who grew out of the superabundant energy of the Precambrian time. Their continent was in the region of our current north pole and is called in theosophy “the imperishable sacred land”. These water men were bone-less and almost formless. They did not die but rather they disappeared into the 2nd cycle race by a process called “Budding”. It was during this period that the work of forming the human body; as we know it, was seriously undertaken. These water-men of the 1st cycle were terrible and bad. They were destroyed by the perfected spiritual beings from Globe C to make way for our etheric bi-pedal body type.

The Lemurians the 2nd cycle of Globe D

The race that replaced the water-men are called the “Sweat-Born Race”. Not much is known except that their home was in Greenland. It is said that large drops oozed from their bodies and then developed into human embryos. In the occult texts that I have read they say that they were “Dreaming creatures to whom a 1000 years was but a day” and that no evidence of their existence is found. Their life cycles were spent in the oceans.

The Lemurians 3rd cycle of Globe D

From the **3.1** cycle through to the Mid-point of the **3.4** cycle The Lemurians moved from the oceans to the land. Their Sweat-Born drops were human embryos that once on land developed into huge eggs. These huge eggs in turn were warmed and matured by the sun. It was during this transition that our ethereal bodies became solid physical. Also, this transition was a “*hermaphrodite*” period. It was in this hermaphrodite period that the physical and spiritual joined under the newly formed human mind or consciousness. There were many types of 4 armed 3 eyed beings that arose during this cycle. Both in ethereal and solid physical bodies. It was the perfected spiritual beings from **Globe C** who created this newly formed human mind or consciousness. It was done so as to allow the physical and spiritual to unite in these slowly developing hermaphrodite bodies. This union is symbolized by the *Prometheus myth*. In the bible it is symbolized by *Lucifer* masquerading as *Satan* the evil force. Some time after the **3.4** mid-point had been reached both humans and animals went through a long transition period of separating into male and female human beings. This was before the rise of the “*species barrier*”. The ancient world wide legends of mythical races and animals is the result of these marriages. It led to the human like offshoot of the Simian races. *Man did not descend from monkeys, rather monkeys descended from animal and human mating. The “species barrier” ended these animal and human mating matings!* On the other hand, some of the perfected spiritual beings from **Globe C** took humans to breed with so as to produce the Lemurian leaders and instructors prior, during and after the rise of the “*species barrier*”. They did this in two ways: by physically mating; or by the use of their souls will power to inhabit a human embryo. There was also a cycle of cyclops which as best as I can tell started out as *one-eyed* then became *three-eyed* and ended with *two eyes*. The one-eyed cyclopes cycle ran from (3.1 through to 3.3). The Three-eyed cyclopes ran from (3.4 through to 3.5). And the Two-eyed cyclopes ran from (3.5 through to 3.7). The location of Lemuria stretched from the two Americas to the shores of

Asia in the pacific ocean. Thus the dreamy half conscious animal was transformed into a clear headed fully awaken human being during the Mid-point of the Lemurian **3.4 cycle**. And their incestuous lust between man and animal led to the simian races. Moreover, the incestuous lust between animal species led to the mythical creatures of world wide legends. It would not be until the mid-point of the 4th root race of the Atlantean that the species barrier come into full effect and prevent "*cross species breeding*". Between the final Lemurian physical evolution and the first Lemurian city built many hundred thousands of years passed. towards the end of the Lemurian cycle the first rock cities were build of stone and lava. One of these cyclopean buildings, made of lava, was built about 30 miles west of Easter island.
